A: The error means that there is a problem with the game that has been detected by the software's anti-virus software. The best thing you can do is to try to get it fixed. There's not much you can do about this issue. The game needs a CD, or the DVD for the International version of the game.

Feb 15, 2009 I found this on the internet for the PC version of FIFA 09, but i cant get it to work. I've tried the game again, using the "updated" trainer.exe file, which has the crack in it. But there is no crack-permission on the trainer. The crack is in "HKEY_CURRENT_USER\Software\EA Sports\FIFA 09\CustomBrackets" and "FIFA 09" - so it wont work for a new installation. When i click on the crack/patch, it asks me for a Microsoft office installation. I'm using Windows XP SP3. Is there any way to patch the game without the crack? Or is there an alternative for the no cd patch? Thanks. Jul 8, 2009 I get the trainer and it works fine and I can use all my players in the teams and the managers just dont come up. Jul 14, 2009 Somehow I managed to get the cracked version on my win xp installation. When I open the patch it tells me that I have to install Microsoft office to use it.
