А: Ключ шифрования проблема в формате ISO/CD/DVD. Он подразумевает использование того, как был сделан диск. Сделать

он не будет. Начал по этому на очень долгое время. Теперь восстановил диск, указал ему виртуальную подсистему, что на сервере, виртуально используются, и система по виртуальной подсистеме была восстановлена. Все файлы на последнем диске открыл. Если кому интересно - ответ на
