Blood Test Manager Free Download [Win/Mac]

Blood Test Manager is a software that allows you to keep a daily record of blood parameters. The software enables you to create a database of daily entries, in which to fill in the blood parameters values. You can monitor glucose, cholesterol, triglycerides, lipo-proteins, hemoglobin, or fibrinogen. Keep a daily record of blood parameter values The daily variations of the substances in your blood can influence your health, can indicate illnesses, as well as help doctors correctly diagnose your condition. Keeping records of these daily values is like keeping your own medical record and it can come in useful especially for users who suffer from blood affecting conditions. Daily entries for blood parameter values You may select the date and have the entries get automatically sorted. Blood parameters kept under observation Blood Test Manager allows you to store values for a series of parameters, such as glucose, triglycerides, homocysteine, fibrinogen, CRP, cholesterol, hemoglobin A1C, TSH, Low-density lipo-protein, DHEA, testosterone, High-density lipo-protein and estradiol. You may easily enter a new set of values each day or on the selected date, as well as update the numbers in a particular day. The software offers you a unit converter, which allows you to turn International Units to Gravimetric Units, according to the system you are required to use. You may thus convert values for glucose, cholesterol, triglycerides, fibrinogen, DHES, PSA, homocysteine, C-Reactive Protein, testosteron and estradiol. Graphs and quick diagnosis Blood Test Manager can automatically generate a graph, for each entry in the database, indicating the level of the parameters in each day. You may use this visual representation to easily compare the values. Moreover, as you hover the cursor on top of the fields, the tool tips display the reference range for each parameter, so you may observe anomalies ahead of time. Blood Test Manager easy to use Creating a medical record has never been this easy. Blood Test Manager offers an intuitive user interface, that makes it easier to create the database of your blood parameters. You can add values for several parameters in a single entry or you may define separate entries for your standard blood tests. Blood Test Manager has been designed to offer a simple and intuitive user interface, to help you create your own database of blood parameters Type of Blood Tests supported: Blood Test

What's New in the Blood Test Manager?

Blood Test Manager is a simple tool that allows you to create your own personal medical record. For each blood parameter for which you add values to the software, you may enter the date and time, average value for all the measurements, and maximum and minimum values. Blood Test Manager then automatically stores these values in its database and updates them on the selected date. You may sort the data by date or by the parameters. You may then look up at all the data in your database or check the daily variations of the parameters. The tool also allows you to create a graph showing the level of a given parameter in each day. Graphs and quick diagnosis is a useful feature of Blood Test Manager. Publishers/DevelopersIf you have questions regarding the site registration process, please contact us. The Best of the Net - kylemaxwell ===== dberube The best way to go about it is with your own personal brand. Have a website that you contribute to regularly. Post good stuff on it. If you have an interesting blog, go ahead and post it there. Add stuff to , add interesting people to the lists of the most interesting people. If you're a web developer (and obviously, we're all developers here) then go and build something that you like, and post it there. Finally, create good content that you can point to. Blogging is great, but posting to Hacker News and to your Twitter/Facebook account is even better. --- Skywing I think that's easier said than done, though. I have been compiling HN/Reddit shares, posts, and websites in the #socialmedia hashtag on Twitter for a few months now. It's not very well organized or curated, though. And, it's only Twitter. ----- Skywing Great compilation. Thanks for sharing. :) Tuesday, August 7, 2013 The last time I bought something from Cotton On was a couple of years back. I always see it at the mall but never quite got around to going in
