- Choose the color of the text and the background of the text. - When you double click a text or icon, the text turns transparent. 60 Publisher: Quracom Software License: Shareware, Free to Try Version: 3.5.4 File Size: 1.1 MB Platform: Win95/Win98/WinMe/Win2000 Date Added: 01/17/2006 Price: Free to try Downloads: 1,542 4 Review(s) Reviews for Quracom Software Quracom Desktop Icon Transparent GinoThe Genius reviewed it on 2011-08-30 4 What I like about it This utility is extremely useful, I use it all the time. When you need to make an icon transparent and it's done without any problems. When it starts working, I don't need to even put it back to what I originally put it as. I like the fact that it also allows you to make the background transparent too. You don't have to get all the way involved with it and that's a good thing. The fact that it allows you to make a single or double click transparent, without having to click on anything is a plus. I can move icons around without affecting the transparent part and that's a huge bonus. What I don't like about it What I don't like about it is that it's a little buggy. It may come in and out of the main window a few times, before it decides to do what you want it to do. The fact that there is no instructions for it. You have to use trial and error for it. It doesn't have a lot of features, but it does what it needs to do. I can only give it 4 stars. There were some things that bothered me, but I'm sure it will be fixed in future updates.
