Unicorns -- Unicornate, Inc (OTCBB: UNH) Recently, I have discovered that the majority of my reports has been coming from the Unicornate Industry source. Due to this, I can definitely say that there is some validity to what they have stated. They also said they would be listed in the OTCBB so that the investors can see their results. For the majority of us, the OTCBB is a listing of all of the OTC companies. Currently, Unicornate is in OTCBB as Unicornate, Inc (UNH). What is Unicornate? According to Unicornate's website, "Unicornate, Inc is a global nutrition and natural product company with a mission to build a healthy tomorrow. Unicornate, Inc., through its subsidiaries, develops, manufactures, markets and distributes nutritional and dietary supplements and beverages in Japan, United States, and the European Union. The company's products include calcium supplements, calcium-fortified beverages, sports drink mixes and nutritional products for the health and sports nutrition industries." As of the last quarterly results, Unicornate had a revenue of \$9.1 million with a net income of \$5,573,000. Currently, it appears that Unicornate has nine separate manufacturing facilities throughout Japan, China, Thailand and Brazil. There are currently no other companies besides Unicornate and one other company, NutraPure, Inc. (UNH) whose shares I own. What do I see with Unicorse? Currently, I have two companies under the leadership of the Unicornate, Inc. (UNH) family. I would say that Unicornate, Inc. is the flagship company and NutraPure, Inc. is simply a marketing subsidiary
