What's New in the AutoCAD?

Automatically identify even the most subtle conflicts between imported markup and your drawing, suggesting a change to your drawing. (video: 1:00 min.) Add and correct markup in all application windows with Markup Assist. Use it to import part libraries into drawings, apply toolbars, or create custom commands. (video: 1:30 min.) Built-in commands for Common Part Library and Application Markup. (video: 1:20 min.) Meeting Scheduling: Save time by setting up meeting reminders and notes for up to 3 years in advance. (video: 1:50 min.) Project Navigation: See your completed projects with project tree and list views. Switch easily among individual projects and tasks. (video: 1:00 min.) Option to export project data as Project Information files (.PINFO) for further sharing and collaboration. (video: 1:25 min.) No matter where you are in your project, navigation tools give you fast and easy access to your tasks, your team, and the status of your projects. (video: 1:30 min.) Customize the appearance of your toolbars, menus, and toolbars with a variety of new UI controls. (video: 1:10 min.) Options for switching workspaces and windows. Use a compact view for customizing your workspace, or open and work in all your windows. (video: 1:00 min.) Now, switching from the drawing to the meeting interface is as easy as clicking a single button. (video: 1:50 min.) Quickly access the drawings, documents, and other applications you're most likely to need in the meeting, freeing up your time to focus on your team. (video: 1:00 min.) Supports multiple workspaces to help you quickly find your drawings. (video: 1:20 min.) Expert Views: Save time by creating customizable views of drawing content. (video: 1:00 min.) Print and PDF Preview Tools: Review the layout of your drawings on the screen or print to your output device. (video: 1:20 min.) Instant draft scaling to your output device. No matter how you're working, you can set the scaling and the type of output device, such as a projector, so you can keep

System Requirements For AutoCAD:

1. Must be running on MacOS Sierra or newer.
2. Must have the latest version of the MALP support system app (currently available [here](#)).
3. Must have the latest version of the Mojave add-on installed.
4. Must have latest version of the IntelliJ IDEA MALP extensions installed.
5. In case of MALP 3, your machine must support OpenGL version 3.2 or later.
6. Please install a bundled copy of Visual Studio Code (free edition) on your system.
