I love how much this has improved in this first update. So far everything I've tried works without a hitch. The install no longer has any problems and the disc lags don't even get close to being an issue. Nov 12, 2016 The CEXEX download link mentioned above has been removed. The only way to install the CEXEX of Rocksmith 2014 seems to be through a legal steam link. This is a reference link for the CEXEX of Rocksmith 2014 Oct 5, 2015 This Rocksmith 2014 version is currently not supported. The reason is that the client was using the old API version that was eventually deprecated. Developer's Response: Unfortunately, the old API is needed until the new API is ready for use. As the libraries have evolved, the needed changes have been brought in to the new API. Hope this helps. Thank you. Mar 29, 2020 If you are experiencing memory issues, then check for the solution here. It contains how to remove or relocate the Rocksmith 2014 directory without impacting the game. Another option is to use another API version. When you are launching the game, click the Options Menu, then click on the Additional Settings > API Version. On the opened Window, you should find the choices as below. It is very simple to use other API version. Let me explain with an example, if you want to use API 10 (1.0) instead of API 9 (1.9.2), then follow the steps. Firstly, put Rocksmith 2014 folder into the game's installation folder for example: C:/Program Files (x86)/Steam/steamapps/common/RockSmith2014/ Make sure you are using the folder above not as a Steam install folder. Inside the folder above, right click on the rocksmith 2014 folder and choose the option which is to duplicate the folder to Rocksmith 2014 folder with lower API. This new folder is in the same location but the new folder will not have API 9. This is the reason why the old rocksmith will work correctly but the new one with API 9 will not work. So basically, you can move the old folder to the new location of the new API version. That is all, now, you are using API 10. Just make sure you set API to 10 when using Rocksmith
