Is it possible to delete downloaded files from my computer and still use the file? Or should I download it again and then delete the old one? I already tried to download the theme but all I got was a blue screen with an error. I did all the instructions you provided to fix the problem. Please help. The Supreme Court ordered the state government to divide Chandrapur in two during hearings in the Kazipet clash case on Wednesday. A division bench of Justices Ramana and Anil Dave, which was hearing the case, asked senior counsel K Chandrasekhar Rao, appearing for the farmers, if the state would divide the agricultural lands in two, as the farmers had demanded. Mr Rao said he had not brought any suggestion from the farmers. The bench was hearing a petition seeking a stay on the division of the dispute zone in the land-dispute in south Telangana in Chandrapur and Karimnagar districts. The Centre, on the state's request, had on June 16 stayed the division of the dispute zone for some days to give time to the government to consider its claim. It had asked the government to resolve the land issue within the state. The Centre had accepted the state government's claim that the dispute over 3,330 hectares of land in Chandrapur and Kannayakanahalli villages of the two districts could be settled under the agrarian laws. The farm workers had also submitted an affidavit that the farmers had started cultivation and farming operations at the sites in the two villages under the government's green signal. It had further said that the government would pay crop compensation for the initial three years in view of the difficult situation caused by the drought in the state.
