Graphics (SVG) image file .gif - a Graphics Interchange Format (GIF) image file .jpeg - a Joint Photographic Experts Group (JPEG) image file .odt - a Microsoft OpenDocument Text file .csv - a comma-separated values file with a tabulated format .txt - a text file with plain text format .xls - a Microsoft Excel Workbook file .xlsx - a Microsoft Excel Workbook file 77a5ca646e

NetFlow Hosts is a handy utility designed to read / listen for netflow packets from a network device and to show the traffic stats based on IP address and source / destination of the traffic. It can be used for showing, sorting, graph, printing, and exporting the data. It also reads all of the local and remote flows so you can graph all of your traffic on the same chart or network.
