LicePT Smartphone Simulator Crack [2022-Latest]

LicePT Smartphone Simulator is a software solution that was developed specifically to aid people in simulating a smartphone, and encloses a pretty significant amount of tools. Minimal graphical interface The installation process runs smooth, while the interface is quite clean. It is comprised of a pretty typical window and includes several buttons and the current hour and date. Although no Help contents are included, LicePT Smartphone Simulator is quite easy to handle, for both power and novice users. Use a calculator and notepad This program enables you to access multiple apps that you would normally work with on your smartphone. For example, you can use a pretty simple calculator, a custom countdown timer which can be started and stopped with just a click of the button, and an alarm. You can also use a notepad tool, which enables you to write text bodies, adjust the font type, style, size and color, as well as open and save RTF and TXT file formats. Navigate the Internet, play games and open multimedia files A simple web browser is put at your disposal, so that you can easily surf the World Wide Web, while also going back or forward. It is also possible to play two games, access a simple calendar and open multimedia files in dedicated apps. To be more precise, you can upload JPG, PNG, GIF, WMV, AVI and MP3 items, view and listen to them in the main window, as well as use the incorporated playback buttons to control tracks and clips. A final assessment To wrap it up, LicePT Smartphone Simulator is a pretty simple, yet efficient smartphone simulator which is suitable to all types of users. The interface is intuitive, the response time is good and the computer's performance is not going to be burdened at all. LicePT Smartphone Simulator is a software solution that was developed specifically to aid people in simulating a smartphone, and encloses a pretty significant amount of tools. Minimal graphical interface The installation process runs smooth, while the interface is quite clean. It is comprised of a pretty typical window and includes several buttons and the current hour and date.
