GamePoints Keeper is a small yet powerful application that allows you to supply game scores for multiple players. The program reads up to 10 players and associates games with players. Each player can create, delete, or change games and their scores. Game variables such as number of rounds, handicap, winner, and total points can be set for each game. A variety of score lists can be generated by the user, including general and player lists sorted by any of the game variable settings. A player's best game list can be generated for any number of categories. A detailed help file, a user's guide, and e-mail support can be accessed through the Help menu.
