An application for managing the UEFA Euro 2008 Turkey qualifying. This application

---

is similar to UEFA Euro 2008, but is specially designed to add favorite countries and teams to your roster. For example, Germany and USA fans can decide which national team is their favorite before the match starts. Also, there are 3 tab options: statistics, standings, and log. The format and functionality is similar to UEFA Euro 2008. You can see more information about the tournament by visiting [The application will be improved in future, please leave your comments and suggestions. To install the application, just unzip it in the applications folder of your](#)

---

phone. Using Frottbox in the application is not free, you can buy a license in the application by clicking the button 'shop'. Find out more about

**What's New in the UEFA Euro 2008?**

The UEFA Euro 2008 Championship will be played throughout the month of June in Austria and Switzerland. This year, 24 teams are competing in a tournament consisting of two groups of 12 teams each. The teams will compete with each other in a knockout system to determine the

---

winner. The top two finishers in each group and the best third-placed team will advance to the Round of 16. The losers of the Round of 16 game will play a three-match series to determine the last two places in the final standings. On 13th June 2008 the knockout stage will start, with the final taking place on 10th July in Vienna. t use the latest version (which has the new compatibility library for managed code and several new features such as the possibility to show the statistics of the match), so you will need to get it as a separate download.

---

The installation is pretty straightforward, we just double-click the setup file and let the installer do the job. Advantages \* Easy to use \* Very flexible \* Has a nice built-in help system

### Tutorial

The following guide will show you how to install, use and debug the program. If you have a problem, please ask for help on our forum and we'll do our best to help. On a Windows operating system, start the installer. You will be prompted for a license key. If you don't have a license key, you can use a trial version or a demo version. After the installation you have to

---

register your software by entering the license key you received during the installation. We will explain how to register your software later. To start the program first click on the Start button on your Windows Desktop and then double-click the EXE file. If you have a menu bar, you can also find the program options by right-clicking on the EXE file. If the program launches without any problems you are ready to use the program. On the menu bar of the main window you find some options:

- \* File - this is where you can browse the file system to select the match

---

XML file you have copied in the My Documents directory earlier. \* Help - the program's help will show up if you click the Help button. \*

Statistics - this is where you can see the statistics of the match. There is a separate page for each of the groups and a tabbed view, so you can easily switch between the groups. The rows represent the teams and
